

CE – DECLARATION OF CONFORMITY

Producer or its authorised representative	
Producer	Authorised representative
ORAFOL Europe GmbH Orafolstrasse 2, 16515 Oranienburg, Germany	Dr. Holger Loclair
The reference code of the product as given by the producer	ORALITE® 5510

In accordance with the Council Directive 89/106/EEC – on the approximation of laws, regulations and administrative provisions of the Member States, relating to construction products, with the Government Ordinance no. 20 as of the 18th of August 2010 regarding the establishment of some measures for the unitary application of the EU legislation that harmonises the conditions of the products' commercialization and with the Government Resolution no. 622/2004, as amended and supplemented, regarding the establishment of the conditions for introducing on the market the construction products, hereby declares on its own liability that the conformity of the product(s)

ORALITE® 5510,

was attested for the utilisation provided in the Technical Datasheet and that this product (these products) may be used in accordance with the utilisation instructions contained within the documentation of the product.

The conformity is demonstrated having as a reference:

EN 12899-1 for **ORALITE® 5510**.

The performances of the product:

Characteristics	Testing standard	Standard's provisions	Declared values
RA 1, CR 1 ORALITE® 5510	EN 12899-1:2007	<ul style="list-style-type: none"> • Colour Coordinates and Luminance Factor β (EN 12899-1:2007, 4.1.1.3, Table 1), • Specific coefficient of retroreflection R_A in cd / lx per m² (EN 12899-1:2007, 4.1.1.4, Table 3) 	<ul style="list-style-type: none"> • Certificate no. 1388 – CPD – 2.2/2011 ¹ • ORAFOL Technical Data Sheet ¹

The name and the description of the product:

ORALITE® - Reflective films Series 5510 ENGINEER GRADE are weatherproof, self-adhesive retroreflective films with an excellent corrosion and solvent resistance. The retroreflective system of the ORALITE® - Reflective films Series 5510 ENGINEER GRADE consists of catadioptric glass beads which are embedded in a transparent layer of plastic material (class RA1, design A, formerly Type I). The smooth surface shows a high scratch resistance and impact strength, and a very good printability. The reflective data and colours at daylight comply with the international specifications for reflective materials of this class, such as EN 12899-1 Classes RA1, CR2 (Europe), DIN 67520 and DIN 6171 (Germany), BS 873: Part 6 (Great Britain), NFP 98-520 (France), SN 640878 (Switzerland), ASTM D 4956 (US), JIS Z 9117 (Japan).
