

N-Flag 117

Art.No. 03745-XXXX-0003-N

Description

If flag, then the flame retardant G flag or the neutral N flag. Both versions have a particularly soft handle. They are antistatic, have a super print through and can be processed ingeniously. Perfect for flags, banners and beach flags. Important: Run a print test! Many factors influence the textile during printing and application. All technical data were determined according to the current state of measurement technology and reflect the values of the measurement sample. Despite the highest quality standards, there may be production deviations – all information are legally non-binding and without guarantee.
