

MESH SPORT

Article No. 06109-2200

Applications: Sport Shirts • Tops

"The fabric is knitted material made from a combination of mesh and piqué construction. The face side has a honeycomb surface."

The thinner, airier honeycombs lie alternately mesh-like next to thicker honeycombs. This type ensures optimal air transport during physical activity. The synthetic material ensures extremely short drying times. "Mesh Sport" is a very stretchy product and adapts to every body movement.

Print technology

Facts

Composition	100 % Polyester
Material	Mesh/Piqué
Width ¹	160 cm
Weight	150 g/m ²
Selvedge	Glued selvedge
Roll length ²	90 m

¹Due to the stretchable construction of knitted fabrics, deviations of +/- 2cm may occur.

²The standard length can be different depending on production.

Remarks

Important: Run a print test! Many factors influence the textile during printing and application. All technical data were determined according to the current state of measurement technology and reflect the values of the measurement sample. Despite the highest quality standards, there may be production deviations – all information are legally non-binding and without guarantee.
