

## Product Information

CHIPTEX BASE 3000 LF is a heat-sealable Viscose Flock (white, 500 µ) which is suitable for direct printing with Pigment Eco-Solvent and solvent inks. It is OEKO-TEX® Standard 100 Class I certified.

Due to the special fiber impregnation, a photo-realistic print resolution with radiant colours is achieved.

The liner on the hotmelt side allows motifs and logos to be cut by all current CAD/CAM plotters after printing. The Flock has excellent cutting and weeding abilities and convinces due to excellent washing resistance.

CHIPTEX BASE 3000 LF is used for motifs and logos on sport, leisure and work wear.

Nylon and textiles with a hydrophobic impregnation are not suitable for heat transfer.

**We recommend evaluation on test material.**

Due to the various influences which occur from production and transfer of plotter letterings, consistency of the carrier materials and also washing and cleaning conditions, product liability can only cover the unprocessed material.

## Standard Dimensions

500 mm x 50 m  
500 mm x 25 m

## Technical Data

<b>Transfer Film:</b>	Viscose Flock
<b>Adhesive:</b>	Copolyester-hotmelt
<b>Thickness [mm]:</b>	0,50      +/- 5 %
<b>Liner:</b>	Silicone-paper, white

## Transfer Conditions

<b>Temperature:</b>	160 °C (15 sec.)
<b>Pressure:</b>	3,5 bar [medium pressure]

## Wash Resistance

<b>Wash resistance:</b>	60° C Only colour- and mild-detergent. Suitable for dry-cleaning. Wash textiles inside out. Do not tumble dry.
