

Characterization according to REACH Regulation

The product is an article within the meaning of the Regulation (EC) No 1907/2006 (REACH) Article 3.

Hazards Identification

The product is no hazardous substance or hazardous mixture according to the German "Gefahrstoffverordnung" or the European Regulation (EC) No 2008/1272 (CLP Regulation) or the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). If the material is used as described in the respective Technical Data Sheet and Processing and Handling Instructions a danger by the product is not to be expected. When used as foreseen and foreseeable, our products do not release any substances as expected and intended.¹

SVHC / REACH

On basis of our supplier's declarations we can confirm that this product does not contain any substance in a concentration of more than 0.1 weight-% listed in the Candidate List of Substances of Very High Concern (SVHC) published by the European Chemical Agency (ECHA) (<https://echa.europa.eu/candidate-list-table>).

RoHS

The maximum allowable concentrations defined in Annex 2 of Directive 2011/65/EU (RoHS)(as amended on 2017/1011/EU) for the substances mentioned therein are complied with.

FCKW

According to the Regulation (EC) No 1005/2009 the product doesn't contain the there called substances that deplete the ozone layer.

Packaging Material

Packaging material used by ORAFOL for packaging its products fulfil the requirements of the Regulation (EC) 94/62/EC and of the German Regulation on the prevention and recycling of packaging waste (VerpackV).

Disposal of wastes

In Germany and in the EU, the product can be disposed of as household-type industrial waste (EU waste code number 20 03 01) if there are no other local or regional disposal rules. Otherwise, the disposal regulations of each country must be followed.

Basis of Evaluation

The basis of evaluation for the component related statements of this document form the components and additives which are used in the formulation of the product. These statements refer to the current condition of the product when leaving the factory site of ORAFOL Europe GmbH in Oranienburg.

This information is based on our current knowledge and practical experience. It cannot be excluded that minor traces are included in the materials due to contamination of single raw material components which cannot be avoided from the technical point of view. Routine analyses of our products concerning the contents of such substances are not carried out. For factors which are beyond our knowledge and control any guarantee and liability cannot be accepted. It is the responsibility of the user to assess its product uses and applications and assure compliance to all applicable laws and regulations.
